ProQuest Central

ALL SUBJECT AREAS. ALL REGIONS. ALL IN ONE PLACE.

ProQuest Central is the broad and comprehensive solution that researchers demand. Use one platform to search global and full-text content for research in business, health, medical science, social science, education, technology, science, arts, history, religion, philosophy, language, literature and more.

ProQuest Central content isn't just valuable, it's easily discoverable. Available on the ProQuest platform, our content is accessible through Summon® from ProQuest, OCLC WorldCat, Ex Libris Primo Central, PubMed and even Google Scholar. Researchers can also cross-search ProQuest content with ProQuest ebook holdings for a true end-to-end experience.

Award-winning interface. Voted "Best Interface" in the 2015 Charleston Advisor Readers' Choice Awards. Robust tools for information managers, intuitive design for end-users. Cite results in numerous citation styles, save to multiple document formats (including PDF), save searches and export documents to reference management tools like RefWorks.

Content from the most important publishers. Access full-text journals like the *Lancet*, *BMJ*, *Nature*, *Science*, *New England Journal of Medicine* and *Journal of International Business Studies*. Our partnerships with scholarly publishers like Cambridge University Press, Springer and Emerald ensure that we're always including the latest sources.

Global market information. An unrivaled collection of expert analyses of industries, countries, economies, and markets from Business Monitor International, Euromonitor, Economist Intelligence Unit, Plunkett Research, Oxford Economics and more.

Breaking news. Local, regional and international news coverage including the *Wall Street Journal*, *Globe and Mail*, *New York Times*, *the Times of India*, *Financial Times*, *Le Monde* and *The Guardian*.

Business and current affairs. Keep up to date with current editions of the most widely read magazines like *The Economist*, *New Statesman*, *Billboard* and *The New Yorker*.

Cutting-edge working papers. More than 1m papers from ArXiv, NBER, RePec, INSEAD and OECD.

Deep data. Explore 50 years' worth of actual and forecast economic data for the G20 countries from Economist Intelligence Unit. Search more than 100,000 full-text dissertations, each with extensive references and literature reviews.

Complete health and medical coverage. Key medical journals and dissertations, practical guidance and in-depth coverage in conference proceedings and working papers and hundreds of health, psychology and nursing videos.
